

Reschedules and Makeups

Rainouts

Missouri weather is unpredictable and I've never yet had a year go off as scheduled for the entire summer. Rainouts will happen at some point in time. I work with the league to reschedule your pictures as quickly as possible. If the league cancels the games on picture night then I will not shoot that night either. Your coach will inform you of the makeup date as soon as I make arrangements with the league.

I DO NOT SHOOT IN THE RAIN. My gear is far too valuable to allow exposure to water, and your wet child will not look good in the photo either.

Makeups

I'm occasionally asked by a coach if it is possible to reschedule their picture session to a different night because a few players are on vacation. Please understand that my baseball and softball schedule is set up many weeks in advance of your league assigned picture date. I also shoot in a number of towns and while I do try to accommodate teams that have a large number of players absent it may not always be possible - or the rescheduled date may not be at a time you normally play a game.

Sometimes I have agreed to a reschedule and at the rescheduled time just as many players are absent as would have been absent at the original time. I always will go with shooting to convenience the players instead of rescheduling for a coach who will be absent. The pictures are of the kids primarily not the coach as these are youth leagues.

Photoshop

But can't you just Photoshop my child into the picture? In some instances this is possible – if I know in advance that I have to do so, and I have left a space/room in the team photo to add your child in later. I DO NOT GUARANTEE that I will be able to add your child into a team picture, so please do not assume I can. Again, I shoot a very large number of teams during the season. If I have to Photoshop a player into every teams picture they would not be returned before the end of summer.
